tive.

Miss Ella Brown, daughter of Wm. E. Brown, leaves next week for Vassar College, New York. Miss Elta will be sadly missed by her Hamilton school-mates and other friends.

Vice President, Mrs. Dr. Parks; Secre-tary and Treasurer, Mrs. James Biair, Purchasing Committee: Mrs. Kinder, Mrs. Biair and Mrs. McMaken.

### DAYTON, KY.

At the Democratic primary meeting neld Saturday night at Keuven's Hall, Judge Skillback in the chair and "non-corresive" Jones officiating as Secretary, the following agreement were the following named gentlemen were elected as delegates to the Convention elected as delegates to the Convention to be held next Wednesday in Covington: L. A. Leonard, James Peters and Judge Skillback. Alternates—Lewis Keaven, Peter Klein, John Keuven and John Weaver. The delegates were instructed for Col. Duncan for Congress. Keuven Hall was the only place announced for the holding of the meeting, but a private note was obtained from but a private note was obtained from Col. Fearrons authorizing a meeting at Ebmer's, under which the following were selected: Henry Vasche, Herman Jouring and Lewis Keuyen. Of the latter two are for Carlisle and one for Duncan.

WEST COVINGTON, KY. Philip Magnire, Esq., was elected delegate in the interests of Duncan.

Col. Dick Flanagan, of Cincinnati, Is still sojourning with the genial host of White Hall.

With sincere regret we are called on to chronicle the death of Judge William McDonald, who departed this life yesterday morning at 7 o'clock, after suffering severely from pulmonary complaints for some weeks, at the age of thirty-nine years and six menths, leaving a widow and five children to lament the sudden demise of the best of husbands and kindest of parents, as well as the loss of a good citizen to this community. The bereaved who wand children have the hartfelt symmetry of this wools. the heartfelt sympathy of this whole community in this, their hour of sad and sore affliction. The funeral will take place on Wednesday morning, of which we will speak hereafter.

That Centennial storming party that took our modest merchant, L. Romanowitz, Esq., by such sudden surprise, yesterday afternoon, was the grandest of the grand, good natured affairs that it has ever been conveyed link to witness and this

good natured affairs that it has ever been our good luck to witness, and this is how it all happened: Mr. B., for a number of years previous to returning from mechanical labors, has been the foreman of the labors, has been the foreman of the labors, has been the labors, ha were in full blaze as late as 6 o'clock.

Dan. Sherry, who had his hand so severely injured last Friday at Switt's and gaining private admission to the beautiful Centennial Hail, and there appointed the following named gentlemen from their number to wait on the edge of the bed and soliloquized thus: "Feet wer, tight boots, a sere on one hand an' a felon on tother, an' no beautiful Centennial Hail, and there appointed the following named gentlemen from their number to wait on the genial host and apprise him of the pres-ence of his old friends, and Messrs. Charley Wegman, H. Wertze, B. Lefrink, G. Otto, and F. Morsnell obeyed their orders and did their duty most delicately and artistically, simply requesting Mr. R. to show them his beautiful improvements, which he did in all the simplicity and good nature of a father to his children, without ever thinking of the very agreeable surprise in store for him; but reaching the grand loiding doors, they were flung open anidst a cheer of delight from the brilliant gathering there assembled to note the agreeable surprise; when a beautiful lady stepped to the front and caned the good natured, modest, wondering man with a beautiful ebony gold-headed staff, which ne said should descend to the lineal de-cendant of L. Romanonitz to the end of time. For al offerings were made by the ladies to decorate the banquet table, set imediately after, for the accommodation of the brilliant gathering; and then they talked and drank to their hearts' content. We left the happy throng enjoying themselves, and promised that due notice of the affair should appear in their favorite paper, the STAR.

A Strange Premonition of Death.

[From the Knoxville (Tenn.) Chronicle.] It is with feelings of distress that we are called upon to chronicle the particuare called upon to chronicle the particulars, as we gather them from Mr. Gaines Harrell, of a terrible accident which betel our young friend, Prof. W. E. F. Milburn, last Tuesday eyening, and which, in all probability, 65st him his life. He had gone from his home, a few miles from Rheatown, into town Tuesday, in a buggy, and was returning home about dark, and, while driving along alone, his horse suddenly took fright by some means or other, and becoming unmanageable dashed away at a fearful E Primary.

but its action is upon the cream, and if but its action is upon the cream, and it passes off with the buttermilk. The ingredients of the powder should not be mingled together until required to be used, or at the time the cream is in the shurn ready for churning.

The poor Fiji Islanders are most sin-Brown, leaves next week for Vassar College, New York. Miss Elta will be sadly missed by her Hamilton school-mates and other friends.

The Ladies' Book Club held a meeting Saturday afternoon and reorganized for the ensuing year by electing the following officers: President, Mrs. Beardsly; the measles. The islanders had never had measles. The islanders had never had the measles, and the disease spread among them with fearful fatality, sweep. the measles, and the disease spread among them with fearful fatality, sweeping away forty thousand of them, or about one-third of the population. In their ignorance they thought that the disease was spread among them purposely, in order to reduce their strength. They at once relapsed into heattenism, and were so incensed at the Christians that the latter became alarmed. Thereupon the English Governor collections upon the English Governor collects troops and makes war upon them. Be-tween measles and gunpowder there is tween measles and gunpowder there is now a good prospect that, if the Fijis are not converted, they will be annihilated. It seems a pity that these peaceful islanders should ever have been disturbed. Their worst fault prior to the arrival of Christianity had been the cooking of an accessional missionary. cooking of an occasional missionary-and bad eating at that.

The hyglenic effects of summer fruits can not be well overstated. The cravings of the system for vegetable acids of the system for vegetable acids are a natural indication of the necessity of the human organism. This is particularly the case on the approach of the aummer soluties; and at the very season nature comes to the rescue, offering the early fruits which are characterized by that happy mature of the season. early fruits which are characterized by that happy mixture of the saccharine and the aciduous principles which render them so universally acceptable to our palates. The digestive apparatus accepts the grateful offerings, and fortunately there are few exceptions to the axiom which may be announced: That well-ripened fruits, when freshly gathered, are among the most wholesome articles of the materia alimentarie.

Ex-Empress Eugenie still wears fine

Ex-Empress Eugenie still wears fine clothes. She recently wore, while lunching with Queen Victoria, at Windsor Gastie, an exquisite costume of gros grain with overskirt and sleeveless bodies of crape, and to the belt at her waist she had a pouch suspended, made of crape and embroidered magnificently in silk with her monogram, her arms, and her imperial crown.

During recent improvements of a jail at New Haven, Ct., there was found be-tween the rear walls of two tiers of cells a wire, firmly secured, one hundred and fifty feet long. Attached to it was a pan, which was evidently used for car-

Perfect Fitting to Every Part of the Body. Aiways Safe. Always Ready for Use.

### THE

### VOLTAIC ARMADILLO An Electro-Magnetic Remedy for Nervous Diseases.

No shock or uppleasant sensation experienced, but a constant electric current, giving to the nerves a gentle stimulas, réviving cir-culation, removing Congestion. Pain and Sore-ness. For Neuralgia, Rheumatism, Sciatica, Lumbago, Weak Back, Servoisness, General Debility, Imperfect Circulation, &c., &c., &c.

New York, July 14, 1875.
DEAR SIR: I used your Voltaic Armadill
Waisband in two cases of Muscular Rheama
Rhe with entire success. I shall, with grea
pleasure, try it in similar cases in the future. "CHAS E HACKLEY, M.D.,
"47 West Thirty-first street,

Sleeplessness from Overtaxation. I am happy to be able to inform you that I am still improving an appe soon to be able to say "Richard is hingell again." Since I have been using the Armidillo. I have had no trouble in sleeping. Can take a map in the afternoon, and sleep from 9 until 6 next morning.

G. E. LOBDELL,

President Lobdell Car Wheel Co.

WILMINGTON, April 18, 1975.

I have used your Bands and Soles and find them in every way worthy the confidence of the Medical Profession.

J. W. TRUEWORTHY, M.D. MUNCIE, Ind., Oct. 18, 1872.

WAUKESHA. Wis., Dec. 8, 1875, I have used the Armanillo for neuralgia in the head. Its effect upon me was wonderful, it relieves me in a very few minutes. I have been subject to this fearful disorder for many years, but have found nothing to equal your Electro-magnetic remedy. I also use the soles with great satisfaction. R. L. GOVE.

In a case of chronic and sub-scote arthriffs, my patient, a very intelligent young lady, has derived infinitely more benealt from your Bang than from all the blistoring, bandaging, Compressed sponges, &c., and endured at the hands of one of New York City's most eminent physicians. HENRY T. BAHNSON, M.D. SALEM, N.C., June, 1873. SALEM, N. C., June, 1874.

The Band succeeded admirably in the case of chronic rheumatism, for which I got it. I re-commend it most cordially for such. ST. GEO. W. TEACKLE, M.D., 128 Fark avenue, Baltimore. JULY 14, 1875.

JULY 14, 1875.

"We have studied and Labors from physicians who have used the Armanillo. The officery of these Bands and Soles is clearly established in cortain forms of Encumatic Affections. Neural particular and the studies of the Back and Abdomen, etc. The Pulvermacher Chain, which has received the distinguished approbation of Sir Charles Locok and other European scientists, is largely used in England, and, as the Armadillo performs the same functions and presents the same principle, only in a more convenient form, there is no reason why it should not attain the celebrity here." "Physician and Pharmacist, November, 1875.
"And many physicians of high repute, and some within our own knowledge, testity to the beneficial use of electro-magnetism by such means as Mr. Scibert has very ingentionsly devised, and which we think worthy of attention." "Smitznam, Mar, 1875.

vised, and which we think worthy of attentions.—Sanitarian, May, 1875.

## Family Machines

IN USE.

A Quarter of a Century's trial has Demonstrated their Superiority.

"Wheeler & Wilson's New No. 6 Machine must eventually supersede all others now known with which it comes in competition. We recommend for it the highest award which it is in the power of the Institute to bestow."—From the unanimous report of the five Judges of the

American Institute, New York, 1874. The Board of Managers unanimously approved the report, and recommended for this machine the Gold Medal of the Institute.

The Board of Direction unanimously approved this recommendation, and awarded the Gold Medal to Wheeler & Wilson, the only Gold Medal awarded for a Sewing Machine by the American Institute for many years.

The Austrian Official Report of the Vienna Exposition pronounced it "the marvel of the Exposition," and added, " this universal machine sews the beaviest leather harness and the finest gauze with a truly pearl stitch." The Grand Medal of Progress was

awarded for it. What the Leading Manufacturers of Boots and Shoes say of

### WHEELER & WILSON'S New No. 6 Sewing Machine.

We, manufacturers of Boots and Shoes, are using Wheeler & Wilson's New No. 6 Sewing Machine in all kinds of stitching on our work, and confidently believe that it will supersede all others in this branch of manufactures, for the following reasons: 1. The work done by this machine is superior

to that of any other in variety, amount, excellence and beauty. 2. This machine is more durable than any other of its class, requiring much less outlay

for repairs and renewal of parts. 8. It does the cording or staying of button holes in a most elegant and substantial manner, without the expense of royalty.

In short, because by the use of this machine we can turn out superior work at less cost than with any other. [SIGNED BY MANY.]

It is fast superseding all other ma-

chines for leather work. WHEELER & WILSON'S

New No. 7 Machine. Now for the first time introduced to the public, ranks in excellence with their famous No. 6 Machine, but has some modifications adapting it to special classes of work. The Tailor will find it as well suited to his work as is No. 6 to leather work. It might properly be termed the Tailor's Machine.

### TESTIMONIALS.

The substantial excellence of the Wheeler & Wilson Sewing Machine, and its high appreefation by those who are familiar with its practical working, are shown in the following testimonials from well-known firms;

From A. J. CLARK, prominent Shirt Manufacturer.]

We use the Wheeler & Wilson Sewing Machine in the manufacture of Shirts, Collars and Cuffs, as no other machine will do our work so well. A. J. CLARK.

From JOHN SHILLITO & CO., leading Dry Goods Merchants of Cincinnati.]

During the past ten years we have used over One Hundred Wheeler & Wilson Sewing Ma-chines in the manufacture of Ladles' Garments of every kind, including Heavy Cloaks and Fine Underwear, and they have given entire satisfaction. For our work the Wheeler & Wilson Sowing Machine is unequaled. JOHN SHILLITO & CO.

[From STRIBLEY & CO., Shoe Manufactur-

ers of twenty-two years experience. We are running the Wheeler & Wilson Sewing Machine No. 6, by steam power, at a speed of 700 stitches per minute on Ladles' and Misses' Fine Shoe Uppers, and find it superior to any other machine in the following particulars: It will close seams with heavy silk in leather

we know. It will close leather scams with Marshall's Cabled Thread at above speed equal to the Howe Cylinder Machine. It runs faster and makes a more regular stitch on fine leather than any machine we

tighter, without puckering, than any machine

We believe it will prove a very durable machine, and when worn down may be repaired cheaper and better than the average of first-STRIBLEY & CO. class machine.

We use and cheerfully recommend the Wheeler & Wilson No. 6 Sewing Machine as the best in use for Shoe Fitting, Our display of Ladies' and Misses' Fine Shoes, at the Cincinnati Exposition of 1875 was Stitched and Fitted on these Machines. KRIPPENDORF & HART.
